PRODUCT DESCRIPTION

PTFE NON-STICK MESH BASKET | 11.5" X 13.5"X 1" | WIDE WEAVE

PTFE non-stick baskets provide the convenience of easy clean-up, quick turnaround, and months of reusability. The open mesh design permits an even heat distribution so all food cooks evenly and completely, and goes into rapid cool-down once removed from the heat source.

ADAPTABILITY

These baskets are a one-step solution for prep, transport, and cooking of a wide range of foods.

Use the Essentialware PTFE basket as a carrier for sandwich, hoagie, burrito or pizza and place into any microwave or microwave/convection oven for quick preparation. PTFE mesh baskets are also perfect for straining hot food items such as fries, potato chips, pasta and noodles.

Oven baskets are compatible with toaster ovens, commercial ovens, commercial high-speed ovens, microwaves, smokers.

Durability

Sturdier than most competitors, one Essentialware PTFE basket will provide **months of non-stick performance.**

Essentialware designed our baskets to meet or exceed OEM specs, to outperform and outlast the fail-point of comparable products.

Benefits
