PRODUCT DESCRIPTION

PTFE NON-STICK UPPER PLATEN WRAP | 15" X 15"

Essentialware's non-stick platen wraps are top quality, 5 mil, industrial strength, Triple-Coated advanced flouropolymer (PTFE) fabric that outperforms other non-stick cover sheets. These wraps are a necessity when using sublimation or heat transfers. It protects the garment and machine from bleeding and ghosting when using colored transfers, and can be used with zippers & buttons, shoes, hats, umbrellas, tote & sport bags, and more.

TIPS FOR A BETTER TRANSFER

1. Remember to **adjust your heat** press pressure to accommodate for the pad and material you're

transferring to

2. Begin every press with a **fresh transfer sheet**
3. **Tape down** your image so you don't get a duplicate image, known as **ghosting**
4. Remove the transfer in **one quick, fluid motion**
